7.01	**Graphs of equations and functions**				
7.01a	*x*- and *y*-coordinates	Work with *x*- and *y*-coordinates in all four quadrants.			A8
7.01b	Graphs of equations and functions	Use a table of values to plot graphs of linear and quadratic functions. e.g. $y = 2x + 3$ $y = 2x^2 + 1$	Use a table of values to plot other polynomial graphs and reciprocals. e.g. $y = x^3 - 2x$ $y = x + \frac{1}{x}$ $2x + 3y = 6$	Use a table of values to plot exponential graphs. e.g. $y = 3 \times 1.1^x$	A9, A14
7.01c	Polynomial and exponential functions	Recognise and sketch the graphs of simple linear and quadratic functions. e.g. $y = 2$, $x = 1$, $y = 2x$, $y = x^2$	Recognise and sketch graphs of: $y = x^3$, $y = \frac{1}{x}$. Identify intercepts and, using symmetry, the turning point of graphs of quadratic functions. Find the roots of a quadratic equation algebraically.	Sketch graphs of quadratic functions, identifying the turning point by completing the square.	A11, A12
7.01d	Exponential functions			Recognise and sketch graphs of exponential functions in the	A12

GCSE (9–1) content Ref.	Subject content	Initial learning for this qualification will enable learners to...	Foundation tier learners should also be able to...	Higher tier learners should additionally be able to...	DfE Ref.
7.01e	Trigonometric functions			Recognise and sketch the graphs of $y = \sin x$, $y = \cos x$ and $y = \tan x$.	A12
7.01f	Equations of circles			Recognise and use the equation of a circle with centre at the origin.	A16
