

3.2 Research Methods and Topics in Sociology

3.2.1 Research Methods

Students must examine the following areas:

- quantitative and qualitative methods of research; research design
- sources of data, including questionnaires, interviews, participant and non-participant observation, experiments, documents and official statistics
- the distinction between primary and secondary data, and between quantitative and qualitative data
- the relationship between positivism, interpretivism and sociological methods; the nature of 'social facts'
- the theoretical, practical and ethical considerations influencing choice of topic, choice of method(s) and the conduct of research.
