

3.2.6 Selecting appropriate tools, equipment and processes

Content	Potential links to maths and science
Students should be aware of, and able to discuss and demonstrate, good and safe working practices, including: • the importance of using the correct tools and equipment for specific tasks • the importance of ensuring their own safety and that of others when in a workshop situation • how designs are developed from a single prototype into mass produced products • the effect on the manufacturing process that is brought about by the need for batch and mass manufacture • how to select the most appropriate manufacturing process to be able to realise their, or others', design proposals • the importance of health and safety in a commercial setting including workforce training and national safety standards.
