

3.1.9 Health and safety

Content	Potential links to maths and science
Safe working practices: • knowledge of the Health and Safety at Work Act (1974), and how it influences the safe manufacture of textile products • control of Substances Hazardous to Health (COSHH) and safety precautions that should be taken with relevant materials • safe working practices and identifying potential hazards for the school or college workshop and industrial contexts • safety precautions that should be taken with specific manufacturing processes • the concept of risk assessment and its application to given manufacturing processes.	Understand why some materials, adhesives and finishes are hazards.
Safety in products and services to the customer. Students should be aware of, and able to explain, how designers and manufacturers ensure products are safe for consumers to use, including: • legislation used to protect consumers and its impact on product design, eg Consumer Rights Act (2015), Sales of Goods Act (1979), specifically including the requirements that relate to children's clothing • the British Standards Institute (BSI), and how specific products might be tested to meet safety standards • measures to ensure the safety of toys, eg Lion Mark • advice to consumers: • manufacturer's instructions • safety warnings • aftercare advice including care labelling.
