Critical analysis and evaluation. Students should be aware of, and able to discuss, their own and commercial products leading to possible improvements/modifications of the original idea.	
Testing and evaluating products in commercial products. How products are required to undergo rigorous testing, and the testing methods used, before they become commercially available for sale.	
Use of third party feedback in the testing and evaluation process. How the use of feedback and testing informs the evaluation process, including: • informing future modification and development • the importance of ensuring the views of other interested parties are sought in order to have objective and unbiased feedback.
