

3.2.10 J: Numerical methods

	Content
J1	Mid-ordinate rule and Simpson's rule for integration.

	Content
J2	Euler's step by step method for solving first order differential equations.

	Content
J3	Improved Euler method for solving first order differential equations. $y_{r+1} = y_{r-1} + 2hf(x_r, y_r), x_{r+1} = x_r + h$
