

3.1 Overarching themes

A-level specifications in mathematics must require students to demonstrate the overarching knowledge and skills contained in sections **OT1**, **OT2** and **OT3**. These must be applied, along with associated mathematical thinking and understanding, across the whole of the detailed content set out in sections **A** to **S**.

Students must understand the mathematical notation in [Appendix A: mathematical notation](#) and must be able to recall the mathematical formulae and identities set out in [Appendix B: mathematical formulae and identities](#) (page 45).
