

3.11 J: Vectors

	Content
J1	Use vectors in two dimensions and in three dimensions.

	Content
J3	Add vectors diagrammatically and perform the algebraic operations of vector addition and multiplication by scalars, and understand their geometrical interpretations.
	Content
J4	Understand and use position vectors; calculate the distance between two points represented by position vectors.
	Content
J5	Use vectors to solve problems in pure mathematics and in context, including forces and kinematics.
