

3.2 Unit 2 PHYA2 Mechanics, Materials and Waves

This AS unit is about the principles and applications of mechanics, materials and waves. The first section introduces vectors and then develops knowledge and understanding of forces and energy from GCSE Additional Science. In the second section, materials are studied in terms of their bulk properties and tensile strength. The final section extends GCSE studies on waves by developing in-depth knowledge of the characteristics, properties and applications of waves, including refraction, diffraction, superposition and interference.
