

3.5 Individual research project

Students must identify a subject or a key question which is of interest to them and which relates to a country or countries where Spanish is spoken. They must select relevant information in Spanish from a range of sources including the internet. The aim of the research project is to develop research skills. Students will demonstrate their ability to initiate and conduct individual research by analysing and summarising their findings, in order to present and discuss them in the speaking assessment.

Students may choose a subject linked to one of the themes or sub-themes or to one of the works. However, students must not base their research on the same literary text or film that they refer to in their written assessment.

Students within a school or college should each choose a different subject for their research. However, if more than one student selects the same general subject area, the title of their research and their approach must be different.

The A-level Content Advisory Board (ALCAB) has published illustrative examples of individual research topics at alcab.org.uk
