

3.8.2 Outcomes to be accredited

In successfully completing this component, students will have demonstrated the ability to:

3.8.2.1 Entry 1

Outcomes	Notes/examples	GCSE reference
1.1 Sort and classify objects using a single criterion	Shaded/unshaded, round/not round etc	
1.2 Interpret and draw conclusions from a list or group of objects	<i>How many blue cars were there?</i> <i>Which colour was most popular?</i>	
1.3 Construct and interpret simple line graphs	Including block graphs	S2

3.8.2.2 Entry 2

Outcomes	Notes/examples	GCSE reference
2.1 Sort and classify objects using more than one criterion		
2.2 Collect information by survey	<i>Ask 10 classmates what their favourite food is</i> In external assessment the student will select the correct question to ask in a survey from a given list	
2.3 Record results in lists, tally charts and tables		S2
2.4 Construct and interpret pictograms where one picture represents one item		S2
2.5 Interpret simple tables, diagrams, lists and graphs	<i>Given a daily temperature graph for July, find the highest temperature that month</i>	S2

3.8.2.3 Entry 3

Outcomes	Notes/examples	GCSE reference
3.1 Construct and interpret bar charts with the vertical axis scaled in ones or twos		S2
3.2 Construct and interpret pictograms where one picture represents more than one item		S2
3.3 Extract numerical information from lists, tables, diagrams and charts	Including timetables, holiday brochures, sports results etc	S2
3.4 Complete a frequency table given the original list of results		S2
3.5 Complete a tally chart and the resulting frequency table		S2
3.6 Compare two or more diagrams	Given bar charts for attendances at two youth clubs for a week, <i>Which youth club had more people on Monday?</i>	S2
3.7 Solve one-step and two-step problems based on statistical information	Given daily temperature graphs for July and August, find how much higher the highest temperature was in July than in August	S2
