Study should be targeted at:

- developing knowledge and understanding (as described in [Knowledge and understanding](#) (page 11)) of the characteristics and context of the whole play
- exploring ideas for how the play may be interpreted practically.

The exam will include one compulsory short answer question for all students linking design and context and/or theatrical conventions. Students don't need to have gained practical experience of design to answer this question.

One part of Section B will offer students the choice of answering as a performer or designer (lighting, sound, set, costume, puppets).

Students must not answer Section B and Section C of the exam on the same play ie the live production seen cannot be their set play.
