

1. Number

Ref	Content	Notes
1.1		Knowledge and use of numbers and the number system including fractions, decimals, percentages, ratio, proportion and order of operations are expected
1.2	The product rule for counting	Work out how many 5-digit odd numbers can be formed using the digits 1 3 4 6 8 with no repetition of any digit
1.3	Manipulation of surds, including rationalising the denominator	The use of surds in exact calculations Write $\sqrt{200} - \sqrt{72} + 3\sqrt{162}$ in the form of $a\sqrt{2}$ Rationalise and simplify $\frac{3\sqrt{2} + 4}{5\sqrt{2} - 7}$ Write the expression $\frac{3\sqrt{3} + 7}{3\sqrt{3} - 5}$ in the form $a + b\sqrt{3}$, where a and b are integers
