

5. Matrix transformations

Ref	Content	Notes
		All calculations will be restricted to 2×2 or 2×1 matrices
5.1	Multiplication of matrices	Multiplying a 2×2 matrix by a 2×2 matrix or by a 2×1 matrix Multiplication by a scalar
5.2	The identity matrix I	2×2 only
5.3	Transformations of the unit square in the $x - y$ plane	Representation by a 2×2 matrix Transformations restricted to rotations of 90° , 180° or 270° about the origin, reflections in the lines $x = 0$, $y = 0$, $y = x$, $y = -x$ and enlargements centred on the origin
5.4	Combination of transformations	Using matrix multiplications Use of i and j notation is not required
