*NB: Centres are reminded that any appropriate evidence produced in line with the requirements above should also be sent to the moderator as part of the design students' portfolio.*

## Assessment information

This component is internally assessed and externally moderated. It is worth 80 marks and AO1, AO2 and AO4 are assessed.

First assessment: 2018

There are **two** parts to the assessment.

- 1) A portfolio containing evidence of:
  - o interpreting, creating and developing a devised piece from one key extract from a performance text and applying the methods of a practitioner (AO1)
  - o analysing and evaluating the creative process and the devised performance (AO4).
- 2) A recording of the group/duologue devised performance (AO2).

### The portfolio

All students must produce a portfolio documenting and reflecting on their exploratory process and the skills and techniques that they have developed in response to the text, and the influence of their chosen theatre practitioner.

The portfolio is worth 60 marks. AO1 and AO4 are assessed – AO1 is worth 40 marks and AO4 is worth 20 marks.

The portfolio is marked by the teacher and sent to the moderator if requested as part of the sample, along with the accompanying performance recording.

The portfolio must be the student's own work.

Each portfolio **must** cover the following:

- an exploration of the chosen text and practitioner
- an analysis and evaluation of the student's contribution to the devising process through their ability to create and develop ideas as theatre makers
- an analysis and evaluation of the student's ability to make connections between the chosen text/practitioner and their intended aims and objectives
- an understanding of social, historical and cultural contexts.

Each student **must** include responses to the following statements:

- outline your initial response to the key extract and practitioner and track how it was developed throughout the devising process
- connect your research material/s to key stages in the development process and to performance outcomes
- evaluate how your chosen role/s emerged and developed from initial ideas through to the final performance
- analyse how your contribution was influenced by the selected theatre practitioner and/or theatre makers, and the impact live theatre has had on your own practical work
- discuss how social, historical and cultural context has impacted on your work
- evaluate the creative choices you made and whether or not they were successful in performance.

Portfolios may include any of the following elements:

- annotations and notes
- audio and/or video evidence
- annotated drawings and sketches
- annotated photographs
- extended written responses.

It is recommended that the portfolio be submitted as:

- handwritten/typed evidence between 2500 and 3000 words

or

- recorded/verbal evidence between 12 and 14 minutes

or

- a combination of handwritten/typed evidence (between 1250 and 1500 words) and recorded/verbal evidence (between 6 and 7 minutes).

It is strongly advised that the upper word/time limits are adhered to by students to enable them to satisfy the requirement to produce a concise and coherently structured portfolio.

When students are working on producing their portfolio teachers must follow these rules:

- students must be directly supervised for a sufficient portion of the creation of the portfolio to allow teachers to confidently authenticate each student's work
- teachers should not write any part of a student's portfolio
- teachers may help students to understand the assessment requirements and the assessment criteria
- teachers can provide feedback **once on one draft version** for the portfolio before it is handed in to be marked
- the focus of this feedback must only be on the requirements of the portfolio and the Assessment Objectives
- any additional feedback must be recorded on the *Non-examination assessment authentication sheet* (please see *Appendix 1*).

### The devised performance/realisation of design

The devised performance is marked by the teacher and this performance must be recorded unedited. Please refer to *Appendix 4: Best practice when recording performance*. This recorded evidence must be sent to the moderator if requested as part of the sample along with the accompanying portfolios.

The performance/design realisation is worth 20 marks. AO2 is assessed.

A realisation of each design candidate's work must be seen and assessed in the performance.

Teachers must not give support and guidance during the performance.

Performers will be assessed on their ability to realise artistic intentions through their:

- use of vocal and physical skills
- use of characterisation and communication.

Designers will be assessed on their ability to realise artistic intentions through their:

- use of design skills
- understanding of communication and context.

## Non-assessed individuals

Non-assessed individuals should be used **only** when:

- the total number of students in the cohort does not meet the minimum size requirement
- a student has withdrawn from the performance near to the assessment date
- a student is absent on the day of the assessment.

Non-assessed individuals may be used to read out the lines of the absent student(s) to support the performance group/duologue. Please note that a non-assessed individual may be a class peer, student from a different year group or a member of staff. Assessed and non-assessed individuals must be clearly identified at the start of the recorded evidence to aid moderation.

Permission must be sought from Pearson in advance for the inclusion of non-assessed individuals. Please email your requests to [drama.assessment@pearson.com](mailto:drama.assessment@pearson.com). A copy of the email from Drama Assessment must be included with the work sent to the moderator.

## Resources

Students must have equal access to IT resources and other equipment, as appropriate. Students should have access to a range of resources to enable them to make choices as required for their tasks.

## Authenticity

Students and teachers must sign the *Non-examination assessment authentication sheet* (please see *Appendix 1*). All sources must be acknowledged.

## Marking, standardisation and moderation

Teachers should mark this component using the assessment criteria on the following pages. Teachers may annotate students' work but should also include any comments on the *Appendix 1: Non-examination assessment authentication sheet* to justify the marks awarded. Any annotations made by the teacher are to be left on the portfolio.

Where marking has been carried out by more than one teacher in a centre, there must be a process of internal standardisation carried out to ensure that there is a consistent application of the assessment criteria.

Marks awarded by the centre will be subject to external moderation by Pearson. Moderation will ensure consistency with national standards and will include a review of assignments to ensure that the assignment-setting rules have been correctly applied by centres. Pearson will notify centres of the students whose work has been selected for moderation. This sample will take cohort size into account. Detailed instructions will be made available for teacher-assessed non-examination assessment and this will include instructions regarding:

- internal standardisation
- materials required for submission (such as timesheets and authentication forms, or additional design skills documentation submitted as part of the design students' portfolio)
- the required sample of candidates (the highest and lowest scoring candidates and a range in between).

In addition to this, centre marking training will be organised by Pearson and will include training on the administrative requirements and best practice.

Moderators of non-examination assessment components will be trained in the administrative arrangements that are required of centres and will be instructed to inform Pearson of any maladministration or malpractice concerns during the process of moderation.

If the moderation indicates that centre assessment does not reflect national standards, an adjustment will be made to students' final marks to compensate.

For further information refer to the Joint Council for Qualifications (JCQ) document *Instructions for conducting non-examination assessments (new GCE and GCSE specifications)* on the JCQ website: [www.jcq.org.uk](http://www.jcq.org.uk). The assessment of this qualification must comply with these instructions.

## Consortium arrangements

If you are a centre that will be part of a consortium, your students will be treated as a single group for the purposes of non-examination assessment moderation.

You need to identify a consortium co-ordinator who must ensure that internal standardisation is carried out by all the teachers involved in each component.

We will allocate the same moderator to every centre within the consortium for a particular component, with confirmation or adjustment of marks being applied to all centres within the consortium.

Centres must register their consortium arrangements using the JCQ centre consortium form available at [www.jcq.org.uk/exams-office/forms/centre-consortium-arrangements-form](http://www.jcq.org.uk/exams-office/forms/centre-consortium-arrangements-form) which then must be sent to Pearson.

## Non-examination Assessment criteria

Teachers must mark students' work using the assessment criteria on the following pages.

### Marking guidance

- All students must receive the same treatment. Teachers must mark the last student in exactly the same way as they mark the first.
- The assessment criteria should be applied positively. Students must be rewarded for what they have shown they can do rather than be penalised for omissions.
- All the marks on the assessment criteria are designed to be awarded. Teachers should always award full marks if deserved, i.e. if the work matches the assessment criteria. Teachers should be prepared to award zero marks if the student's work is not worthy of credit according to the assessment criteria.

### Placing a mark within a level

- Teachers should first decide which descriptor most closely matches the work and place it in that level. The mark awarded within the level will be decided based on the quality of the work and will be modified according to how securely all bullet points are displayed at that level.
- In cases of uneven performance, the points above will still apply. Students will be placed in the level that best describes their work according to the descriptors in that level.
- If work meets the requirements fully, markers should be prepared to award full marks within the level. The top mark in the level is used for work that is as good as can realistically be expected within that level.
- If work only barely meets the requirements of the level, markers should consider awarding marks at the bottom of the level. The bottom mark in the level is used for work that is the weakest that can be expected within that level.
- The middle marks of the level are used for work that is a reasonable match to the descriptor. This might represent a balance between some characteristics of the level that are fully met and others that are only barely met.

**Marking instructions**

In AO4, analysis is required in order to reach evaluative judgements and conclusions in the context of student's own work.

Evidence presented should show a *balanced consideration* between analysis and evaluation, and marks are equally distributed across these two elements.

**Responses that demonstrate isolated analysis without leading to evaluation can only achieve a maximum of 4 marks.**

## Assessment criteria for devised performance: designers

## Security and backups

It is the centre's responsibility to keep the work that students have submitted for assessment secure.

Secure storage is defined as a securely-locked cabinet or cupboard. Where students are producing artefacts, secure storage is defined as a classroom studio or workshop that is locked or supervised from the end of one session to the start of the next.

The rules on storage also apply to electronic data. For example, centres should collect memory sticks for secure storage between sessions or restrict student access to specific areas of the centre's IT network.

For materials stored electronically, centres are strongly advised to utilise firewall protection and virus-checking software, and to employ an effective backup strategy, so that an up-to-date archive of students' evidence is maintained.

## Further information

For up-to-date advice on teacher involvement and administration of non-examination assessment, please refer to the Joint Council for Qualifications (JCQ) document *Instructions for conducting non-examination assessments (new GCE and GCSE specifications)* available on the JCQ website: [www.jcq.org.uk](http://www.jcq.org.uk)

## Component 2: Text in Performance

---

### Overview

Students will develop and demonstrate theatre-making skills, appropriate to their role as a performer or designer. They will explore how they realise artistic intentions in performance.

The knowledge and understanding acquired through the study of one key extract from a performance text in Component 1 can be applied to assist in the interpretation, development and realisation of key extracts from performance texts.

Teaching and wider reading should address the significance and influence of social, historical and cultural contexts on the chosen texts and extracts.

### Content

There are **two** areas of focus.

- 1) A monologue or a duologue performance/design realisation from **one key extract** from **one** performance text.
- 2) A group performance/design realisation of **one key extract** from a **different** performance text.

Students may complete this component either as a performer or as a designer or combine these roles.

The design roles are:

- costume design
- lighting design
- set design
- sound design.

Centres wanting to offer design roles to students should refer to *Appendix 3: Design roles minimum resource guidance for centres*.

### Text and extract choice

Centres have a choice when selecting texts. However, the **two key extracts** must be from **two different** performance texts, these texts must meet the following criteria.

- Be professionally published, substantial and have a running time of at least 60 minutes.
- Be chosen so it offers students the opportunity to demonstrate exploratory range and depth.
- Offer students the opportunity to access the demands of this component as a performer and/or designer.
- Have the degree of challenge, in terms of appropriateness of content, complexity of themes, deeper social, historical and cultural contexts to enable students to achieve at A level and meet the Assessment Objective.
- Be different from the texts studied in Component 1 and Component 3, so students study a range of performance texts.
- Cannot be any prescribed text from the Component 3 lists.

The performance texts chosen could be different in terms of their:

- time period
- theatrical convention/genre
- thematic content, form/structure and style
- playwright
- social, historical and cultural contexts.

Centres may select performance texts by a playwright already studied in Components 1 and 3 provided there is a difference between these texts. They should consider the skills, experience and prior learning of students in choosing texts that will engage students' interest throughout the considerable preparation and rehearsal time needed for this Component.

Students must study two key extracts from two different performance texts. For the purposes of this qualification, a key extract is defined as a scene or a moment that is significant to the text as a whole and at least 10 minutes in length when performed. This can take the form of a continuous dialogue/scene, or edited extracts, for example abridging the extract to match the number of performers in a group. For the monologue/duologue, the extract chosen may be edited to provide the required amount of material, but must provide a coherent monologue or duologue.

Students are required to perform/realise a design for all or part of these key extracts, following the time limit requirements below. Centres can choose different performance texts, all students are not required to study the same texts.

Centres should consider the skills, experience and prior learning of students in choosing texts that will engage their interest throughout the considerable preparation and rehearsal time needed for this component.

Centres are reminded that they must complete a form regarding text choice, please refer to *page 7* for details.

## Group sizes and time limits

All students must be assessed as individuals.

### Monologue and duologue

The regulatory requirements are that students must meet the minimum performance times below.

| Number of performers    | Minimum performance times | Maximum performance times |
|-------------------------|---------------------------|---------------------------|
| Monologue (1 performer) | 2 minutes                 | 3 minutes                 |
| Duologue (2 performers) | 5 minutes                 | 6 minutes                 |

## Group performance

A group must have between a minimum of **three** and maximum of **six** performance students. In addition there can be up to one designer per role, per group.

The regulatory requirements are that groups must complete a minimum performance time of 6 minutes for this component.

The recommended minimum performance times have been provided to ensure that each student within the group has sufficient time to evidence their skills for this component.

| Group size               | Recommended minimum performance times | Maximum performance times |
|--------------------------|---------------------------------------|---------------------------|
| 3–4 performance students | 20 minutes                            | 30 minutes                |
| 5–6 performance students | 35 minutes                            | 45 minutes                |

Centres should be aware that performance times that are between the regulatory minimum (6 minutes) and the recommended minimums (20 or 35 minutes) may not allow students to evidence their skills fully in order to access all levels of the assessment criteria.

## Meeting the performance timings

For students (performance and design) who do not meet the regulatory minimum performance requirement of 2, 5 and/or 6 minutes the examiner will use their professional judgement against the AO2 assessment criteria based on what the student has achieved and then the total mark will be reduced proportionally according to how many seconds the work is under length.

The proportional time penalty will be applied, by Pearson Edexcel, after the work has been marked by the examiner, using the conversion tables in *Appendix 5*.

Examiners will be instructed to stop marking after the maximum performance time has passed.

## The performances/design realisations

Students must draw on their experiences of the exploration and rehearsal process in order to present coherent, well considered interpretations of the two key extracts in their performances. These interpretations must include placing the key extracts in the context of the whole performance texts.

## Knowledge and understanding

Students (as performers or designers) are required to:

- read and research their chosen extracts
- understand social, historical and cultural contexts, style and genres, thematic content, contemporary practice and theatre makers
- develop textual understanding to communicate well-considered and coherent interpretations of text in performance.

Also students must know how performance texts are constructed to convey meaning through:

- style, structure, language and stage directions
- character construction and interpretation
- use of performance space and spatial relationships on stage
- relationships between performers and audience
- use of design elements.

## Skills

Students (as performers or designers) must acquire, develop and apply skills in:

- working independently or collaboratively as performers or designers to interpret text, in rehearsal and in performance
- making appropriate judgements about the interpretation of texts in performance
- researching and developing ideas
- demonstrating the ability to apply acting/design skills effectively in the context of a performance to an audience.

Performers must also acquire, develop and apply the following skills:

- refining and amending work in progress with the aim to realising their artistic intentions
- rehearsing and learning lines
- characterisation through:
  - o vocal expression: use of clarity, pace, inflection, pitch and projection
  - o physicality: use of space, gesture, stillness and stance
- contact, relationships and communication with other performers on stage (proxemics)
- communication and engagement with the audience.

## Requirements for performances/design realisations

All performances/design realisations should take place in front of an appropriate audience and must be recorded. Centres are free to identify their own suitable audience and venue for the performance, this could include:

- performance to the rest of the class or another class within the centre
- performance to an invited external audience.

### Monologue and duologue performances/design realisations

Teachers should adopt a facilitating role but they are not allowed to direct performance(s). They can give guidance during the practical work and the preparation for the performance(s) but not during the performance(s) itself.

When in a facilitating role, teachers are **allowed** to:

- help students with interpreting assessment information, e.g. explaining the assessment criteria and the requirements of the component
- intervene if a health and safety issue arises
- intervene if a risk to security of evidence arises
- undertake a management role in relation to managing time, space, resources
- ask questions to stimulate independent thought without leading students.

When in a facilitating role, teachers are **not allowed** to:

- offer coaching
- direct students
- undertake an artistic/creative role
- give solutions to artistic/creative problems
- make artistic/creative decisions.

## Group performances/design realisations

Teachers should adopt a facilitating role and may direct. They may direct and give guidance during the practical work and the preparation for performance(s) but not during the performance(s).

When directing, teachers are allowed to:

- interpret and structure the text as written to meet the demands of the examination (time limits etc.)
- suggest solutions to artistic and creative problems referring to the assessment criteria if appropriate
- make artistic and creative decisions referring to the assessment criteria if appropriate (however, they should not make direct judgements about the assessment criteria or allocate marks).

Students should also take into consideration any health and safety implications as appropriate.

## Design roles

Designers are expected to work collaboratively with a group of performers (and other designers, if appropriate) within their chosen area of design.

Where a student is assessed in the role of a designer, it is their design skill that is the focus of the assessment, rather than their technical competence in the operation or use of equipment.

The performance texts should provide sufficient challenges for design students to enable them to meet the demands of this component. Design elements should be suitably theatrical and work in sympathy with other design features. All designs should also take into consideration actor/audience relationships and health and safety implications as appropriate.

There is a maximum of one designer per role, per group.

Designers must also acquire, develop and apply the following skills:

- make appropriate judgements during the development process
- develop and articulate a design concept
- make appropriate design choices within the context of a performance to an audience
- use design skills to contribute to the performance as a whole
- demonstrate the ability to apply design skills and materials effectively within the context of a performance to an audience.

A list of the requirements for each design skill for this component is given on the next page.
