
Content	Students should be able to:	Additional guidance notes
Taxation	Understand taxation: direct and indirect; progressive, proportional and regressive taxes. Understand how governments might use public expenditure and taxation to reduce poverty.	Students should understand the possible link between changes in tax rates and tax revenues.
Public sector borrowing and Public sector debt	Understand the significance of the size of public sector borrowing and debt.	Students should understand the significance of differences in the state of public finances between countries, for example with respect to attractiveness to foreign direct investment and incentives.

4.3.8 What other measures can be used to promote growth and development?

What students need to learn:

Content	Students should be able to:	Additional guidance notes
Ways of promoting growth and development	Consider factors such as: ■ aid ■ debt relief ■ development of human capital ■ inward looking/outward looking strategies ■ free market/government intervention approaches ■ industrialisation; development of tourism; agriculture ■ microfinance ■ fair trade schemes ■ role of international financial institutions and non-government organisations in promoting growth and development.	Students should investigate the benefits and disadvantages associated with each of the listed strategies. In addition, the strategy should be considered in relation to some theoretical framework, for example market orientated approaches; structural change theories; international dependence theories. With reference to a particular economy, students might consider which theory might be most appropriate. Students could examine the use of microfinance and fair trade schemes as they affect particular countries. The functions of some of the key institutions should be considered and evaluated.

D Assessment and additional information

Assessment information

Assessment requirements	For a summary of assessment requirements and assessment objectives, see <i>Section B, Specification overview</i> .
Entering candidates for this qualification	Details of how to enter candidates for the examinations for this qualification can be found in Edexcel's Information Manual, copies of which are sent to all examination officers. The information can also be found on Edexcel's website: www.edexcel.org.uk .
Resitting of units	There is no restriction on the number of times a unit can be attempted prior to claiming certification for the qualification. The best available result for each contributing unit will count towards the final grade. Results of units will be held in Edexcel's unit bank for as many years as this specification remains available. Once the Advanced Subsidiary (AS) or Advanced Level qualification has been certificated, all unit results are deemed to be used up at that level. These results cannot be used again towards a further award of the same qualification at the same level but unit results used for an AS award remain available for use in an Advanced GCE Level award.
Awarding and reporting	The grading, awarding and certification of this qualification will comply with the requirements of the current GCSE/GCE Code of Practice for courses starting in September 2008, which is published by the Qualifications and Curriculum Authority. The AS qualification will be graded and certificated on a five-grade scale from A to E. The full GCE Advanced level will be graded on a six-point scale A* to E. Individual unit results will be reported. A pass in an Advanced Subsidiary subject is indicated by one of the five grades A, B, C, D, E of which Grade A is the highest and Grade E the lowest. A pass in an Advanced GCE subject is indicated by one of the six grades A*, A, B, C, D, E of which Grade A* is the highest and Grade E the lowest. To be awarded an A* students will need to achieve an A on the full GCE Advanced level qualification and an A* aggregate of the A2 units. Students whose level of achievement is below the minimum judged by Edexcel to be of sufficient standard to be recorded on a certificate will receive an unclassified U result.
Performance descriptions	Performance descriptions give the minimum acceptable level for a grade. See <i>Appendix 1</i> for the performance descriptions for this subject.

Unit results

The minimum uniform marks required for each grade for each unit:

Unit 1 and Unit 2

Unit grade	A	B	C	D	E
Maximum uniform mark = 100	80	70	60	50	40

Students who do not achieve the standard required for a Grade E will receive a uniform mark in the range 0–39.

Unit 3

Unit grade	A	B	C	D	E
Maximum uniform mark = 80	64	56	48	40	32

Students who do not achieve the standard required for a Grade E will receive a uniform mark in the range 0–31.

Unit 4

Unit grade	A	B	C	D	E
Maximum uniform mark = 120	96	84	72	60	48

Students who do not achieve the standard required for a Grade E will receive a uniform mark in the range 0–47.
