

Paper 3: Speaking

Content

Students should be able to demonstrate:

- knowledge and understanding of the cultural context by giving ideas, examples and information on one of the themes and on a chosen subject of interest they have researched linked to the social and cultural context of the language studied
- the ability to analyse aspects of the cultural context by presenting and justifying valid arguments, viewpoints and conclusions
- the ability to interact and hold a natural and fluent discourse
- skill in manipulating language accurately
- the ability to respond to written language in speech.

These aspects are assessed via two distinct tasks conducted entirely in the target language, which are carried out in consecutive order in one session.

Task 1 (discussion on a theme)

Content for this task will be based on any one of the twelve sub-themes from one of the four overall themes listed on *pages 8–9* of the specification. Students will be able to choose one out of two sub-themes to discuss and this choice will be given to them on the day. Stimulus cards will be given as a springboard to the discussion, which the teacher-examiner will then broaden onto other sub-themes of the wider Theme.

Task 2 (presentation and discussion on student's independent research project)

This task is in two parts. Content for this task will be based on the subject of interest that students have chosen for their independent research project. This may be based on any of the four themes of study listed on *pages 8–9* of the specification or on a subject of interest of the student's choosing. However, it **must** relate to the cultural and social context of the language studied.
