

Area of Study 5 – Fusions

There are many examples of different fusions and this area of study explores how different musical cultures or traditions are combined to create a musical fusion. The core understanding is to examine how the musical elements are treated in a piece of fusion. The early Debussy set work is a good starting point, with the fusion of classical music and Indonesian Gamelan (Anoushka Shankar) providing further variety.

The pieces in Appendix 4 again look at other types of fusion to provide variety and breadth to this area of study, from the Portuguese and African rhythms of Sara Tavares to the Indian and pop fusions of Jai Ho.
