

Non-state actors	1.2 Globalisation.
Globalisation	1.2.1 The process of globalisation:
Economic globalisation	• complex web of interconnectedness – the factors driving globalisation are the interlinking of people (social), countries, institutions, culture, economics, technology and politics.
Political globalisation	1.2.2 Its impact on the state system.
Cultural globalisation	• Widening and deepening interconnectedness and interdependence. • Challenge to state control over citizens in areas such as law. • On the development of international law. • Humanitarian and forcible intervention. • The debate between hyperglobalisers, globalisation sceptics and transformationalists, including the realist and liberal views.
Homogenisation and monoculture	
Interconnectedness	1.3 Debates about the impact of globalisation including its advantages and disadvantages.
World government	• The impact of globalisation, and its implications for the nation state and national sovereignty.
Global governance	1.4 The ways and extent to which globalisation addresses and resolves contemporary issues, such as poverty, conflict, human rights and the environment.

Subject content	Students should gain knowledge and understanding of:
2 Global governance: political and economic Key terminology NGOs Structural Adjustment Programme (SAP) Key terminology: political The United Nations Security Council NATO Key terminology: economic International Monetary Fund (IMF) World Bank World Trade Organisation (WTO) G7(8)/G20 North-South divide Dependency theory	2.1 Political 2.1.1 The United Nations (UN). - Origins and development of the UN, including its 1945 charter. - Role and significance of the UN to include the Security Council, General Assembly, Economic and Social Council, International Court of Justice including their strengths and weaknesses. 2.1.2 North Atlantic Treaty Organisation (NATO) - Role and significance of NATO including its changing role, particularly since the end of the Cold War, and strengths and weaknesses.
	2.2 Economic 2.2.1 International Monetary Fund (IMF) and the World Bank. - Role and significance of these institutions, including their strengths and weaknesses. 2.2.2 The World Trade Organisation (WTO) and G7/G8 and G20. - Role and significance of these institutions, including their strengths and weaknesses. 2.2.3 Significance of how global economic governance deals with the issue of poverty, including: - The North-South divide and other measurements to include world-systems theory, dependency, orthodox and alternative measurements of poverty. - Classical economic development theory, structural theory, neo-classical development theory.
	2.3 The ways and extent to which these institutions address and resolve contemporary global issues, such as those involving conflict, poverty, human rights and the environment. In particular to focus on: - how the following prevents the UN Security Council from effectively addressing and resolving the issues above: - the membership and structure - the use of veto - how the following prevents the IMF and World Bank from effectively addressing and resolving the issues above - pressure for reform and criticism, including Structural Adjustment Programmes (SAPs), global economic crisis. 2.3.2 The role and significance of the global civil society and non-state actors, including non-governmental organisations (NGOs) in addressing and resolving the issues above.

Subject content	Students should gain knowledge and understanding of:
3 Global governance: human rights and environmental <i>Key terminology: human rights</i> International law International Court of Justice (ICJ) International Criminal Court (ICC) International tribunals Human rights/ Universal human rights Humanitarian intervention <i>Key terminology: environmental</i> United Nations Framework Convention on Climate Change (UNFCCC) Intergovernmental Panel on Climate Change (IPCC) Global commons Tragedy of the commons Sustainability/ Sustainable development	3.1 Human rights 3.1.1 Origins and development of international law and institutions (International Court of Justice, International Criminal Court, special UN tribunals and European Court of Human Rights (ECHR) in creating the concept of global politics. - Sources of authority, including the 1948 Universal Declaration of Human Rights. 3.1.2 The key issues of these institutions in dealing with human rights: - impact on state sovereignty - rise of humanitarian interventions and growth in 1990s, with examples of successful and unsuccessful intervention - reasons for selective interventionism, development of responsibility to protect and conflict with state sovereignty - examples of alleged Western double standards/hypocrisy. 3.2 Environmental 3.2.1 The role and significance of the United Nations Framework Convention on Climate Change (UNFCCC). - The creation of the Intergovernmental Panel on Climate Change (IPCC) and its role and significance. 3.3 The ways and extent to which these institutions address and resolve contemporary global issues, such as those involving conflict, poverty, human rights and the environment. 3.3.1 How the following issues affect international law from effectively addressing and resolving the issues above: - debate about the effectiveness and implications for state sovereignty and the extent to which international law is accepted and enforced - performance of the international courts, including controversies. 3.3.2 How the following issues affect global environmental governance from effectively addressing and resolving the issues above: - competing views about how to tackle environmental issues to include: - shallow-green ecology versus deep-green ecology - sustainable development and tragedy of the commons. - Strengths and weaknesses of international agreements, including key highlights from Rio, Kyoto, Copenhagen, Paris. - Obstacles to international co-operation and agreement, including sovereignty, developed versus developing world division and disagreement over responsibility and measurement. 3.3.3 The role and significance of the global civil society and non-state actors, including non-governmental organisations (NGOs) in addressing and resolving the issues above.

Subject content	Students should gain knowledge and understanding of:
4 Power and developments	4.1 Different types of power. - The use and effectiveness of the follow types of power: - hard: military and economic - soft: diplomatic and cultural.
Key terminology	
Hard power	
Soft power	
Great power	
Superpower	
Emerging power	
Polarity/Unipolarity/Bipolarity	4.2 Differing significance of states in global affairs and how and why state power is classified. - State power classifications: - great powers - superpowers, including the USA - emerging powers, including BRICS (Brazil, Russia, India, China and South Africa).
Multipolarity	4.3 Polarity. - The implications of the following polar structures: - unipolarity/hegemony - bipolarity - multipolarity - Consideration of the changing nature of world order since 2000.
Democratic state	
Semi-democratic state/non-democratic state	
Autocratic state	
Failed states	4.4 Different systems of government. - The characteristics, examples and consequences for global order of: - democratic, semi-democratic, non-democratic, autocratic states, failed states and rogue states.
Rogue states	4.5 Development and spread of: - liberal economies - rule of law - democracy.
	4.6 The ways and extent to which the changing relationships and actions of states in relation to power and developments address and resolve contemporary global issues, such as those involving conflict, poverty, human rights and the environment.

Subject content	Students should gain knowledge and understanding of:
5 Regionalism and the EU <i>Key terminology</i> Regionalism European Union (EU) European integration Sovereignty Supranationalism Intergovernmentalism Federalism Global actor Widening-deepening	5.1 Regionalism 5.1.1 The different forms. • Growth of regionalism and regionalism in different forms, including economic, security and political. 5.1.2 Debates about and the reasons for and significance of regionalism. • The relationship between regionalism and globalisation. • Prospects for political regionalism and regional governance. • The impact on state sovereignty
	5.2 Development of regional organisations, excluding the EU. • North American Free Trade Association (NAFTA) • African Union (AU) • Arab League • Association of South East Asian Nations (ASEAN).
	5.3 Factors that have fostered European integration and the major developments through which this has occurred. • Formation, role, objectives and development of the European Union (EU). • Establishment and powers of its key institutions and the process of enlargement. • Key treaties and agreements. • Economic and monetary union. • Debates about supranational versus intergovernmental approaches.
	5.4 Significance of the EU as an international body/global actor, including the constraints and obstacles affecting: • its political, economic, structural and military influence in global politics.
	5.5 The ways and extent to which regionalism addresses and resolves contemporary global issues involving conflict, poverty, human rights and the environment.

Subject content	Students should gain knowledge and understanding of:
6 Comparative theories Key terminology Realism Liberalism International anarchy Security dilemma Complex interdependence Global governance Anarchical society and society of states	6.1 Main ideas of realism. • States as key actors in global politics and the balance of power (state sovereignty). • International anarchy and its implications. • Inevitability of war. • The security dilemma. 6.2 Main ideas of liberalism. • The significance of morality and optimism on human nature. • Possibility of harmony and balance. • Complex interdependence. • Likelihood of global governance. • Impact and growth of international organisations. 6.3 Divisions between realism and liberalism in relation to: • human nature and power • order and security and the likelihood of conflict • impact of international organisations and the significance of states. 6.4 Main ideas of the anarchical society and society of states theory. • Acceptance that there is anarchy in the global system – absence of overarching authority. • States have an informal understanding that ensures a degree of co-operation – based on norms and rules that increase levels of trust and reciprocal behaviour. 6.5 An evaluation of the extent to which realism and liberalism explain recent developments (since 2000) in global politics. This should be done through the study of relevant case studies that cover each of the other content sections: • the state and globalisation • global governance: political and economic • global governance: human rights and environmental • power and developments • regionalism and the EU.

Definitions of key terminology are given in *Appendix 2: Key terminology glossary*.
