

2 Subject content and assessment information

This GCSE in Physical Education will equip students with the knowledge, understanding, skills and values they need to be able to develop and maintain their performance in physical activities. Students will also gain understanding of how physical activities benefit health, fitness and wellbeing.

Qualification aims and objectives

The aims and objectives of this qualification are to enable students to:

- develop theoretical knowledge and understanding of the factors that underpin physical activity and sport and use this knowledge and understanding to improve performance
- understand how the physiological and psychological state affects performance in physical activity and sport
- perform effectively in different physical activities by developing skills and techniques and selecting and using tactics, strategies and/or compositional ideas
- develop their ability to analyse and evaluate to improve performance in physical activity and sport
- understand the contribution that physical activity and sport make to health, fitness and wellbeing
- understand the key socio-cultural influences that can affect people's involvement in physical activity and sport.

Component 1: Fitness and Body Systems

Overview

This component assesses students' knowledge and understanding of the factors underpinning physical activity and sport performance. Students will develop their theoretical knowledge and understanding of applied anatomy and physiology, movement analysis and physical training so that they can use this knowledge to analyse and evaluate performance and devise informed strategies for improving/optimising their own practical performance.

Questions in the examination paper may be contextualised by reference to any of the activities in the activity list (as well as gym/fitness activities) in Component 3: Practical Performance.

A glossary of key terms for the content of this component is found in *Appendix 5: Glossary of key terms* (pages 53–55).
