

Topic 4: Use of data

Subject content	What students need to learn
In this topic students will develop knowledge and understanding of data analysis in relation to key areas of physical activity and sport, through this content and linking it to other topics.	
4.1 Use of data	4.1.1 Develop knowledge and understanding of data analysis in relation to key areas of physical activity and sport
	4.1.2 Demonstrate an understanding of how data is collected in fitness, physical and sport activities – using both qualitative and quantitative methods
	4.1.3 Present data (including tables and graphs)
	4.1.4 Interpret data accurately
	4.1.5 Analyse and evaluate statistical data from their own results and interpret against normative data in physical activity and sport

Assessment information

- First assessment: May/June 2018.
- The assessment is 1 hours and 30 minutes.
- The assessment is out of 80 marks.
- Students must answer all questions.
- The assessment consists of multiple-choice, short-answer, and one extended writing question.
- For the nine-mark extended writing question, students will be expected to draw on their knowledge and understanding in relation to the question, apply their knowledge and understanding and come to a reasoned judgement in order to answer the specific requirement of the question.
- Calculators may be used in the examination. Information on the use of calculators during the examinations for this qualification can be found in *Appendix 7: Calculators*.

Sample assessment materials

A sample paper and mark scheme for this paper can be found in the *Pearson Edexcel Level 1/Level 2 GCSE (9–1) in Physical Education Sample Assessment Materials (SAMs)* document.

Component 2: Health and Performance

Overview

This component assesses students' knowledge and understanding of the factors underpinning participation and performance in physical activity and sport. Students will develop their theoretical knowledge and understanding of the contribution that physical activity and sport make to health, fitness and wellbeing and how these can impact on their own performance.

Sports psychology will be introduced, with a focus on skill development, through relevant practice, guidance and feedback, as well as knowledge that learners can then apply to their own learning in practical situations in order to improve their performance. Key socio-cultural influences that can affect people's involvement in physical activity and sport will also be considered.

Questions in the examination paper may be contextualised by reference to any of the activities in the activity list (as well as gym/fitness activities) in Component 3: Practical Performance.

A glossary of key terms for the content of this component is found in *Appendix 5: Glossary of key terms* (pages 53–55).
