

|               |                                                                                                                                                                                                                                                                       |                                                                                             |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
|               | This is the code that features in the DfE Section 96 and on the LARA as being eligible for 16–18 and 19+ funding, and is to be used for all qualification funding purposes. The QN is the number that will appear on the student’s final certification documentation. |                                                                                             |
| Unit codes    | Each unit is assigned a unit code. This unit code is used as an entry code to indicate that a student wishes to take the assessment for that unit. Centres will need to use the entry codes only when entering students for their examination.                        | Unit P1 – 5PH1F/5PH1H<br>Unit P2 – 5PH2F/5PH2H<br>Unit P3 – 5PH3F/5PH3H<br>Unit PCA – 5PH04 |
| Cash-in codes | The cash-in code is used as an entry code to aggregate the student’s unit scores to obtain the overall grade for the qualification. Centres will need to use the entry codes only when entering students for their qualification.                                     | GCSE in Physics – 2PH01                                                                     |
| Entry codes   | The entry codes are used to: <ul style="list-style-type: none"> <li>• enter a student for the assessment of a unit</li> <li>• aggregate the student’s unit scores to obtain the overall grade for the qualification.</li> </ul>                                       | Please refer to the <i>Edexcel UK Information Manual</i> , available on the Edexcel website |

## Appendix 2: How Science Works mapping

| How Science Works reference<br>(see page 9) | Unit P1 specification reference                                                                                                      |
|---------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
