Area of Study 2B – Christianity

Overview

This area of study comprises a study in depth of Christianity as a lived religion within the United Kingdom and throughout the world, and its beliefs and teachings on life, specifically about the issues of peace and conflict, and crime and punishment.

There are four sections: Christian Beliefs, Crime and Punishment, Living the Christian Life and Peace and Conflict.

The significance and importance of the various beliefs, issues and practices to Christians today should be explored throughout the sections. This should include reference to how the Bible informs a Christian's understanding of the topics and how approaches to the issues are underpinned by philosophical arguments and ethical theory as applicable.

Students will be expected to study Christianity within the context of the wider British society, the religious traditions of which are, in the main, Christian. Students should recognise that Christianity is one of the many religions and world views in Great Britain, which include Buddhism, Hinduism, Islam, Judaism, Sikhism and non-religious views such as Humanism and atheism. This knowledge may be applied throughout the assessment of the specified content.

Students should compare and contrast two areas of belief and practice within Christianity with one of either Buddhism, Hinduism, Islam, Judaism, or Sikhism:

- Beliefs about the afterlife and their significance (1.6)*
- The practice and significance of worship (3.1)*

Students should compare and contrast the areas of ethics and/or philosophy within Christianity with non-religious views as outlined in the content below.

Students should also recognise that within Christianity there may be more than one perspective in the way beliefs and teachings are understood and expressed.
