Area of Study 2E – Hinduism

Overview

This area of study comprises a study in depth of Hinduism as a lived religion within the United Kingdom and throughout the world, and its beliefs and teachings on life, specifically about the issues of peace and conflict, and crime and punishment.

There are four sections: Hindu Beliefs, Crime and Punishment, Living the Hindu Life and Peace and Conflict.

The significance and importance of the various beliefs, issues and practices to Hindus today should be explored throughout the sections. This should include reference to how scripture informs a Hindu's understanding of the topics and how approaches to the issues are underpinned by philosophical arguments and ethical theory as applicable.

Students will be expected to study Hinduism within the context of the wider British society, the religious traditions of which are, in the main, Christian. Students should compare and contrast the areas of belief and practice within Hinduism with Christianity as outlined in the content below.

- Beliefs about the afterlife and their significance (1.5)*
- The practice and significance of worship (3.4)*

Students should recognise that Hinduism is one of the many religions and world views in Great Britain, which include Buddhism, Judaism, Islam, Sikhism and non-religious views such as Humanism and atheism. This knowledge may be applied throughout the assessment of the specified content.

Students should compare and contrast the areas of ethics and/or philosophy within Hinduism and non-religious views as outlined in the content below.
