1–2	• The response shows minimal ability to express ideas relevant to the narrative, report or description required, and ideas hardly follow a logical sequence. • The response is rarely coherent and there is so much digression that the overall theme or purpose of the piece is greatly obscured.
3–4	• The response shows some basic ability to express ideas in a form that would be comprehensible to a sympathetic native reader, with only occasional evidence of ideas following a logical sequence. • The response is occasionally coherent and, while there is some digression, the theme or purpose is generally clear.
5–6	• The response shows a moderate ability to express ideas in a form that would be comprehensible to a sympathetic native reader, and some evidence of ideas following a logical sequence. • The response is sometimes coherent and there is digression from the topic but the overall theme or purpose is clear.
7–8	• The response shows a good ability to express ideas in a form that would be comprehensible to a sympathetic native reader, with much evidence of ideas following a logical sequence. • The response is mostly coherent and, while there may be occasional ambiguity or digression from the theme, these appear to be aberrations in an otherwise pertinent response.
9–10	• The response shows an excellent ability to express ideas in a logical sequence and errors do not interfere with comprehension for a sympathetic native speaker. • The response is entirely coherent and while there may be minor ambiguities or digression from the theme, the response is confident, fluent, pertinent and purposeful.
