

Topic 31: Electricity – Circuits

Students should:		Guidance <i>iLowerSecondary Curriculum reference</i>
31.1	understand that in a series circuit the current can only take one route and is the same everywhere	<i>Year 7: Electricity – Circuits</i>
31.2	understand that in a parallel circuit there are junctions where the current splits and takes different routes/branches	<i>Year 7: Electricity – Circuits</i>
31.3	understand that in a parallel circuit currents combine when routes/branches meet and the total current entering a junction is the same as the total amount leaving	<i>Year 7: Electricity – Circuits</i>
