## 2.3 Sequences

| Subject content                                                   | Guidance                                                                                                                                                                        | Curriculum reference      |
|-------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|
| <b>A</b> Find the term-to-term rule of a sequence                 | 5, 9, 13, 17, 21, ...                                                                                                                                                           | A7.2A                     |
| <b>B</b> Find terms of a sequence using a given term-to-term rule | <p>A sequence starts with 8 and has a term-to-term rule of <math>-3</math></p> <p>What are the first 5 terms of the sequence?</p> <p>What is the 10th term of the sequence?</p> | <p>A7.2A</p> <p>A7.2B</p> |
| <b>C</b> Recognise different types of sequence                    | <p>2, 4, 6, 8, 10, ...</p> <p>2, 4, 8, 16, 32, ...</p> <p>1, 4, 9, 16, 25, ...</p> <p>1, 3, 6, 10, 15, ...</p> <p>1, 1, 2, 3, 5, 8, ...</p> <p>1, 8, 27, 64, 125, ...</p>       | A7.2C                     |
