

3.4 What factors need to be considered when distributing products to markets?

- | | |
|--|---|
| <p>a. Understand the issues related to the effective and responsible distribution of products, such as:</p> <ul style="list-style-type: none"> • cost effective distribution • environmental issues and energy requirements • social media and mobile technology • global production and delivery. |  |
| <p>b. Demonstrate an understanding of the implications of intellectual property (IP), registered designs, registered trademarks, copyright, design rights and patents, in relation to ethics in design practice and consumer rights.</p> | |
