

4.2.2 Constraints

A student's choice of units for these awards is subject to the following restrictions **(a)** to **(d)**.

(a) Mathematics and Further Mathematics Subject Criteria: Compulsory Units

Combinations of units leading to certifications entitled Mathematics and Further Mathematics are required to cover the mathematics subject criteria. The content of this is covered by the following compulsory units.

Mathematics

Advanced Subsidiary GCE: *C1, Introduction to Advanced Mathematics*
 C2, Concepts for Advanced Mathematics

Advanced GCE: *C1, Introduction to Advanced Mathematics*
 C2, Concepts for Advanced Mathematics
 C3, Methods for Advanced Mathematics
 C4, Applications of Advanced Mathematics

Further Mathematics

Advanced Subsidiary GCE: *FP1, Further Concepts for Advanced Mathematics*

Advanced GCE: *FP1, Further Concepts for Advanced Mathematics*
FP2, Further Methods for Advanced Mathematics

(b) Balance between Pure and Applied Units

There must be a balance between pure and applied mathematics. There must be one applied unit in AS Mathematics and two applied units in Advanced GCE Mathematics.

Pure Units	Applied Units
<i>C1, Introduction to Advanced Mathematics</i>	<i>DE, Differential Equations</i>
<i>C2, Concepts for Advanced Mathematics</i>	<i>M1, Mechanics 1</i>
<i>C3, Methods for Advanced Mathematics</i>	<i>M2, Mechanics 2</i>
<i>C4, Applications of Advanced Mathematics</i>	<i>M3, Mechanics 3</i>
<i>FP1, Further Concepts for Advanced Mathematics</i>	<i>M4, Mechanics 4</i>
<i>FP2, Further Methods for Advanced Mathematics</i>	<i>S1, Statistics 1</i>
<i>FP3, Further Applications of Advanced Mathematics</i>	<i>S2, Statistics 2</i>
<i>NM, Numerical Methods</i>	<i>S3, Statistics 3</i>
<i>NC, Numerical Computation</i>	<i>S4, Statistics 4</i>
<i>FPT, Further Pure Mathematics with Technology</i>	<i>D1, Decision Mathematics 1</i>
	<i>D2, Decision Mathematics 2</i>
	<i>DC, Decision Mathematics Computation</i>

(c) AS and A2 Units

AS GCE Mathematics consists of three AS units.

Advanced GCE Mathematics consists of
either three AS units and three A2 units
or four AS units and two A2 units.

(d) Mathematics Units not allowed in Further Mathematics

The following units cover the Subject Criteria for Advanced GCE Mathematics and so may **not** contribute to Further Mathematics awards.

C1, Introduction to Advanced Mathematics

C2, Concepts for Advanced Mathematics

C3, Methods for Advanced Mathematics

C4, Applications of Advanced Mathematics

These units may, however, contribute towards awards in Pure Mathematics, but only as described in Sections 4.3.7 and 4.3.8.
