

3.2.1 Dynamics

Learning outcomes	Additional guidance
<i>Learners should be able to demonstrate and apply their knowledge and understanding of:</i>	
(a) net force = mass $\times$ acceleration; $F = ma$	Learners will also be expected to recall this equation. <i>M1.1</i>
(b) the newton as the unit of force	
(c) weight of an object; $W = mg$	
(d) the terms tension, normal contact force, upthrust and friction	Learners will also be expected to recall this equation.
(e) free-body diagrams	
(f) one- and two-dimensional motion under constant force.
