

3.3.1 Work and conservation of energy

Learning outcomes	Additional guidance
<i>Learners should be able to demonstrate and apply their knowledge and understanding of:</i>	
(a) work done by a force; the unit joule	
(b) $W = Fx \cos \theta$ for work done by a force	
(c) the principle of conservation of energy	HSW2
(d) energy in different forms; transfer and conservation	
(e) transfer of energy is equal to work done.
