

2c. Content of Debates in contemporary society: (03)

This component engages learners in theoretical debates and how these relate to a contemporary global society. The component will develop knowledge and understanding of social processes and social change. It develops links between the topics studied in this component, the nature of sociological thought, contemporary social policy and the core themes. Contemporary and global debates are introduced

through a compulsory topic of ‘Globalisation and the digital social world’ in Section A, whilst Section B explores them in more depth from a detailed study of **one** of three options: either Crime and deviance, Education, or Religion, belief and faith. The following tables outline the content that must be studied. This is split into two sections, Section A and Section B.
