

3.3 Profit/loss

- Calculate profit/loss per unit = Revenue (selling price) per unit - Total costs per unit
- Calculate profit for a given level of output = Total revenue - Total costs

To include:

- How to rearrange a formula to find a component, for instance calculate the value of the total costs if the total revenue and profit are known
- Know the difference between revenue and profit
- The concept of loss when total costs (per unit) exceed revenue (per unit)

Unit R067: Enterprise and marketing concepts
