

2.1 OCR Level 1/Level 2 Cambridge National in IT at a glance

Qualification number	603/7115/8	OCR Entry code	J836
First entry date	01/09/2022	Approved age range	14-16
Guided learning hours (GLH)	120	Performance information	We've designed this qualification to meet the Department for Education (DfE) requirements for qualifications in the Technical Award category of the 14-16 performance tables.
Total qualification time (TQT)	160		
Offered in	England only	Eligible for funding	It's designed to meet the funding requirements of a 14-16 study programme.
This qualification is suitable for students	- aged 14-16 on a full-time study programme wanting to develop applied knowledge and practical skills suitable for use within the IT sector - who want to progress onto other related study, such as vocational qualifications in Information Technology, A Levels, T Levels and apprenticeships - as it is designed to meet the Department for Education's characteristics for a Technical Award		
Entry requirements	There is no requirement for students to achieve any specific qualifications before taking this qualification.		
Qualification requirements	Students must complete three units: - one externally assessed unit (exam – see the Terminal assessment below) - two centre-assessed units (NEA)		
Assessment method/model	Unit R050 is assessed by an exam and marked by us. You will assess the NEA units and we will moderate them. We provide set assignments which must be used to assess the NEA units. Each set assignment will be valid for 1 year. The dates for which they are live are shown on the front cover. You must make sure you use the live assignment for students' assessments and submit in the period in which it is live. You must make sure students have an entry for each series in which you intend to submit or resubmit an NEA unit.		
Assessment series each year	- January - June		
Terminal assessment	The exam must be taken in the final assessment series before qualification certification. If a student retakes their qualification, they will need to resit the exam in order to meet the terminal rule again. The first qualification grade is used for school performance tables even if they have improved their qualification grade.		
Grading	All results are awarded on the following scale: Level 2 – Distinction* (*2), Distinction (D2), Merit (M2), Pass (P2) Level 1 – Distinction (D1), Merit (M1), Pass (P1) and Fail/Unclassified.		
Exam resits	Students can resit the exam. The terminal assessment rule means that the resit result will be used towards the student's final qualification grade and not the best result.		

Repeat submission of students' NEA work

If students have not performed at their best during the assessment of NEA units, they can improve their work and submit it to you again for assessment. They must have your agreement and you must be sure it is in the student's best interests.

We use the term 'resubmission' when referring to student work that has previously been submitted to OCR for moderation. Following OCR moderation a student can attempt to improve their work, for you to assess and provide the final mark to us. There is one resubmission opportunity per NEA assignment.

All work submitted (or resubmitted) must be based on the assignment that is live for the series of submission.

For information about feedback see [section 6](#). The final piece of work must be completed solely by the student and teachers must not detail specifically what amendments should be made.

2.2 Qualification structure

For this qualification, students must achieve **three** units: one externally assessed and two Non Examined Assessment (NEA) units.

Key to units for this qualification:

M = Mandatory	Students must achieve this unit
E = External assessment	We set and mark the exam
N = NEA	You assess this and we moderate it

Unit no.	Unit title	Unit ref. no. (URN)	Guided learning hours (GLH)	How are they assessed?	Mandatory or optional
R050	IT in the digital world	M/618/6129	48	E	M
R060	Data manipulation using spreadsheets	H/618/6130	36	N	M
R070	Using Augmented Reality to present information	K/618/6131	36	N	M

Purpose statement

CAMBRIDGE OCR

Level 1/Level 2 Cambridge National in IT

Qualification number: 603/7115/8

Level of qualification: Technical Award

Overview

What is this qualification for?

OCR Level 1/Level 2 Cambridge National in IT is aimed at students aged 14-16 years who will develop knowledge, understanding and practical skills that would be used in the workplace.

You may be interested in this if you want an engaging qualification where you will use your learning in practical, real-life situations, such as:

• using different applications and tools to design, create and evaluate IT solutions and products

• creating a data manipulation solution

• creating an Augmented Reality prototype.

It will help you to develop independence and confidence in using skills that would be relevant to the workplace.

This qualification will also help you to develop learning skills that can be used in other life and work contexts, such as:

- planning and designing IT solutions and products for a given purpose
- selecting the best tools and techniques to solve a problem
- solving problems by exploring different software application tools and techniques
- creating IT solutions and digital products
- use of planning techniques to complete tasks in an organised and timely way
- finding imaginative ways to solve IT problems.

This qualification will complement other learning that you're completing for GCSEs or vocational qualifications at Key Stage 4 and help to prepare you for further study. More information about this is given below.

What will you study as part of the qualification?

You will study three mandatory units:

50: IT in the digital world

This unit is assessed by taking an exam.

In this unit you will learn about design and testing concepts for creating an IT solution or product, and the uses of IT in the digital world. Topics include:

Design Tools

Human Computer Interface (HCI) in everyday life

Data and testing

- Cyber-security and legislation
- Digital Communications
- Internet of Everything (IoE).

- **R060: Data manipulation using spreadsheets**

This is assessed by completing a set assignment.

In this unit you will learn how to plan, design, create, test and evaluate a data manipulation spreadsheet solution to meet client's requirements. You will be able to evaluate your solution based on the user requirements. Topics include:

- Planning and designing the spreadsheet solution
- Creating the spreadsheet solution
- Testing the spreadsheet solution
- Evaluating the spreadsheet solution.

- **R070: Using Augmented Reality to present information**

This is assessed by completing a set assignment.

In this unit you will learn how to design, create, test and review an Augmented Reality model prototype to meet a client's requirements. Topics include:

- Augmented Reality (AR)
- Designing an Augmented Reality (AR) model prototype
- Creating an Augmented Reality (AR) model prototype
- Testing and reviewing.

What knowledge and skills will you develop as part of this qualification and how might these be of use and value in further studies?

This qualification will enable you to learn about the different design tools that can be used, the principles of human computer interfaces and the use of data and testing when creating IT solutions or products. You will also understand the uses of Internet of Everything and the application of this in everyday life.

You will develop the skills to plan and design a spreadsheet solution to meet a client's requirements. You will be able to use a range of tools and techniques to create the spreadsheet solution which will be tested, and you will learn to evaluate your spreadsheet solution.

Finally, you will develop the knowledge and skills relating to the purpose, use and types of Augmented Reality (AR) in different contexts and how it is used on different digital devices. You will develop the skills to design, create, test and review an AR model prototype.

This will provide you with the learning for a range of IT related further study, important transferable skills and some basic industry knowledge and skills.

The knowledge and skills developed will help you to progress onto a range of academic, technical and applied post-16 study including:

- A Level Computer Science
- Level 3 Technical and Applied General Qualifications, such as the Cambridge Technical in Information Technology, Cambridge Technical in Digital Media
- T Level in Digital Production, Design and Development, Digital Support Services, Digital Business Services
- Digital Apprenticeships, such as IT, Digital and Technology, Data Analyst
- other Level 2 qualifications, such as the Cambridge Technical in Information Technology, Cambridge Technical in Digital Media.

Which subjects will complement this course?

- OCR Level 1/Level 2 Cambridge National in Creative iMedia
- GCSE Computer Science
- GCSE Media Studies
- GCSE Business Studies.

Further details

3 About this qualification

3.1 Qualification size (GLH and TQT)

The size of the qualification is described in terms of Guided Learning Hours (GLH) and Total Qualification Time (TQT).

GLH indicates the approximate time (in hours) the teacher will spend supervising or directing study and assessment activities. We have worked with people who are experienced in delivering related qualifications to determine the content that needs to be taught and how long it will take to deliver.

TQT includes two parts:

- GLH
- an estimate of the number of hours a student will spend on unsupervised learning or assessment activities (including homework) to successfully achieve their qualification.

The OCR Level 1/Level 2 Cambridge National in IT is 120 GLH and 160 TQT.

3.2 Language

This qualification is available in English only. All assessment materials are available in English only and all candidate work must be in English.

3.3 Availability

The Cambridge Nationals qualifications are available in England. They are **not** available in Wales or Northern Ireland.

3.4 Performance information

We've designed this qualification to meet the Department for Education (DfE) requirements for qualifications in the Technical Award category of the 14-16 performance tables.

You'll find information on performance tables for England on the Department for Education [website](#).
