

4.2.4 File compression

- ☐ Lossy compression
- ☐ Lossless compression

To include:

- Know what is meant by lossy compression
- Know what is meant by lossless compression
- Why lossy and lossless compression are used

Assessment guidance

This unit is assessed by an exam. Due to the Terminal Assessment requirement, the exam must be taken in the students' final assessment series. The exam is 1 hour and 30 minutes. It has two sections – Section A and Section B.

- Section A has 10 marks
- Section B has 60 marks
- The exam has 70 marks in total

This will be conducted under examination conditions. For more details refer to the [Administration](#) area.

The Creative iMedia '[Guide to our Sample Assessment Material](#)' gives more information about the layout and expectations of the exam.

A range of question types will be used in the exam, but it will always require students to use the skills of analysis and evaluation.

Section A	• This will have between 7 and 10 closed response, multiple choice and short answer questions which assess the recall of knowledge and understanding. • Questions will sample content from all topic areas, with at least one question relating to each area.
Section B	• This will have context-based questions. Students will be presented with a short scenario which develops through the paper and will apply their knowledge of Creative iMedia concepts to produce relevant responses. • It will include closed response, short answer questions and three extended response questions. • Two of the extended response questions will assess analysis and evaluation, while the third will assess the recall and application of knowledge and understanding. • Content will be sampled from all topic areas, with at least one question relating to each area.

Synoptic assessment

This unit allows students to gain underpinning knowledge and understanding relevant to the qualification and sector. The NEA units draw on and strengthen this learning with students applying their learning in a practical, skills-based way. The synoptic grids at the end of the NEA units show these synoptic links.

More information about synoptic assessment within this qualification can be found in [section 5.2 synoptic assessment](#).
