

1. recall that food colours can be used to make processed food look more attractive;
 2. recall that flavourings enhance the taste of food;
 3. understand that artificial sweeteners help to reduce the amount of sugar in processed foods and drinks;
 4. recall that emulsifiers and stabilisers help to mix ingredients together that would normally separate, such as oil and water;
 5. understand that preservatives help to keep food safe for longer by preventing the growth of harmful microbes;
 6. understand that antioxidants are added to foods containing fats or oils to prevent them deteriorating by reaction with oxygen in the air;
 7. understand that additives with an E number have passed a safety test and been approved for use in the UK and the rest of the EU;
 8. understand that there are health concerns about the use of some additives.
- ① Understanding of how emulsifiers and stabilisers function is not required.
