

Planning and preparation

The amount of time given to learners for the preparation period should be determined by centres. Learners must be given a preparatory period during which they will research, plan and develop ideas for their own response to the option they have chosen. During this preparatory period teachers may give limited guidance. Guidance should be given to learners about availability and choice of materials, health and safety, avoidance of plagiarism and completion of work in accordance with specification requirements and procedures. However, it should be remembered that learners are required to reach their own judgements and conclusions and must work independently to produce their own personal response.

All work must be completed by the designated finishing time set by the centre. Dates and deadlines for preparatory work and the fifteen-hour supervised time, must be set by centres in order to facilitate the completion of marking and internal standardisation by the OCR-set deadline. See Section 4: Admin: what you need to know.

learners will realise their intentions to an outcome(s).

All selected work produced for the component, including the research, planning and development work produced in the preparatory period must be submitted for assessment.

The Externally set task is marked using the relevant marking criteria for the Externally set task in Section 3e.
