

8.1 How can designers assess whether a design solution meets its stakeholder requirements?

- a. Critically evaluating how a design solution has met its intended requirements, including:
- i. functionality
 - ii. ease of use and inclusivity of the solution
 - iii. user needs.

- b. Demonstrate an understanding of the needs and methods for testing design solutions with stakeholders throughout the design development, and when testing the success of a product.

- c. Demonstrate an understanding of the importance of testing the feasibility of getting a product to market, including: considerations of cost, packaging and appeal.

- d. Understanding the relevant standards that need to be met and how to ensure these are delivered, including:
- i. those published by the British Standards Institute (BSI)
 - ii. those published by the International Organisation for Standardisation (ISO) specific to the subject.
