

AL PRINCIPLES	8.2 How can fashion and textiles designers assess whether a design solution meets the criteria of technical specifications?	
	a. Demonstrate an understanding of the methods and importance of undertaken physical testing on a product to ensure it meets the criteria it is meant to fulfil, including: i. functionality ii. accuracy iii. performance.	
	b. Recognise how physical testing systems are integrated into the manufacturing process in the textiles industry to test functional feasibility, including: i. testing of fibres and fabrics for durability and aftercare ii. testing prototypes, toiles and samples for performance and fitness for purpose iii. sampling garments and products through different methods, such as: - o consumer testing, wearer trials - o virtual testing.
