

2d. Content of non exam assessment in A Level in English Language: Independent language research (Component 03)

Independent language research (Component 03) comprises two sections. Section A, An independent investigation of language, provides learners with the opportunity to pursue an area of study which is of particular personal interest. Section B, The academic poster, allows learners to present their research from their independent investigation in a concise and visually accessible way.

In Section B, only the poster will be assessed in this section. However, the 'real-world' purpose of the academic poster is for use in

conferences and to present research projects to a group of peers. This piece of work therefore provides an excellent opportunity for learners to present their research to each other, and could also be used to give the next year's cohort an insight into the types of investigation that have been undertaken, in order to stimulate their thinking. This provides excellent preparation for the types of activities undertaken in universities as a means to disseminate current research findings.
