

3 – Mechanics

When this course is being co-taught with AS Level Mathematics A (H230) the 'Stage 1' column indicates the common content between the two specifications and the 'Stage 2' column indicates content which is particular to this specification.

3.01 Quantities and Units in Mechanics				
3.01a	SI units	a) Understand and be able to use the fundamental quantities and units in the S.I. system: length (in metres), time (in seconds), mass (in kilograms). <i>Learners should understand that these three base quantities are mutually independent.</i>	c) Understand and be able to use the unit for moment (N m).	MP1
3.01b 3.01c		b) Understand and be able to use derived quantities and units: velocity (m/s or m s^{-1}), acceleration (m/s^2 or m s^{-2}), force (N), weight (N). <i>Learners should be able to add the appropriate unit to a given quantity.</i>
