

Section A: Aural Extract

Candidates are required to answer all the questions on a recorded extract drawn from an example of accompanied vocal music composed between 1900 and 1945. A complete or almost complete score of the extract is provided. If the text of the extract is in a language other than English, a literal translation will be given.

Candidates are advised to spend not more than 40 minutes on this section of the question paper.

Using appropriate technical language, candidates should be able to:

- recognise aurally and explain techniques and effects used in the interpretation of the text;
- demonstrate an understanding of relevant tonal procedures;
- compare stylistic features with other examples from the repertoire; and
- comment on relevant features of interpretation in the performance.

This section of the question paper contributes to the assessment of synoptic understanding in the specification.
