

3.2.2 Motion with non-uniform acceleration

Learning outcomes		Additional guidance
<i>Learners should be able to demonstrate and apply their knowledge and understanding of:</i>		
(a)	drag as the frictional force experienced by an object travelling through a fluid	
(b)	factors affecting drag for an object travelling through air	HSW6
(c)	motion of objects falling in a uniform gravitational field in the presence of drag	HSW9
(d)	(i) terminal velocity	HSW1, 5
	(ii) techniques and procedures used to determine terminal velocity in fluids.	PAG1 e.g. ball-bearing in a viscous liquid or cones in air. HSW4 Investigating factors affecting terminal velocity.
