

3.4.1 Springs

Learning outcomes		Additional guidance
<i>Learners should be able to demonstrate and apply their knowledge and understanding of:</i>		
(a)	tensile and compressive deformation; extension and compression	
(b)	Hooke's law	
(c)	force constant k of a spring or wire; $F = kx$	
(d)	(i) force–extension (or compression) graphs for springs and wires	M3.2
	(ii) techniques and procedures used to investigate force–extension characteristics for arrangements which may include springs, rubber bands, polythene strips.	PAG2 HSW5, 6
