Assessment guidance

This unit is assessed by an exam. Due to the Terminal Assessment requirement, the exam must be taken in the students' final assessment series. The exam is 1 hour and 15 minutes. It has two Sections – Section A and Section B.

- Section A has 10 marks
- Section B has 60 marks
- The exam has 70 marks in total

This will be conducted under examination conditions. For more details refer to the [Administration](#) area.

The Enterprise and Marketing ['Guide to our Sample Assessment Material'](#) gives more information about the layout and expectations of the exam.

A range of question types will be used in the exam, but it will always require students to use the skills of analysis and evaluation.

Section A	• This will have 10 multiple choice questions.
Section B	• This will have context-based questions. Students will be presented with a short scenario and will apply their knowledge of enterprise and marketing concepts to produce relevant responses. • Students must make appropriate recommendations for the short scenario provided throughout Section B. These recommendations may relate to any of the topic areas in unit R067. • It will include short/medium answer questions, extended response analysis and evaluation questions. • The extended response evaluation question will assess content from Topic 4.

Synoptic assessment

This unit allows students to gain underpinning knowledge and understanding relevant to the qualification and sector. The NEA units draw on and strengthen this learning with students applying their learning in a practical, skills-based way. The synoptic grids at the end of the NEA units show these synoptic links.

More information about synoptic assessment within this qualification can be found in [section 5.2 synoptic assessment](#).
