

5 Support

5.1 Free resources

The following materials are available on the OCR website:

- specification
- specimen assessment materials for unit R001
- a bank of set assignments for the centre-assessed units R002 – R007.

5.2 Free teaching and Learning resources

Our resources are designed to provide you with a range of teaching activities and suggestions that enable you to select the best activity, approach or context to support your teaching style and your particular students. Some resources also include sample candidate work and assessment, for exemplification of particular aspects of the specification. The resources are a body of knowledge that will grow throughout the lifetime of the specification. They include:

- Teaching activities
- Resources Links
- Delivery Guides
- Mapping Guides
- Examiners' Reports.

Endorsed publications

We also work with a number of leading publishers who publish textbooks and resources for our specifications.

To see endorsed resources for individual subjects, visit the subject page on <https://www.ocr.org.uk/>

For more information on OCR's endorsement process visit <https://www.ocr.org.uk/qualifications/gcse-and-a-level-reform/teaching-and-learning-resources/endorsed-resources/>

3 Training

provide face-to-face courses and live online training events (webinars) where you can benefit from information, advice and guidance from subject experts and network with fellow professionals. We also produce presentations and films that provide detailed information and feedback about examinations, grading criteria and candidate performance in past sessions.

To find out more about professional development, please visit our website.

4 OCR Support services

4.1 Active results

Active Results is available to all centres offering Cambridge Nationals qualifications.

Active Results is a free results analysis service to help teachers review the performance of individual learners or whole schools.

Designed specifically for the UK market, data can be analysed using filters on several categories such as gender and other demographic information, as well as providing breakdowns of results by subject and topic.

Active Results allows you to look in greater detail at your results:

- richer and more granular data will be made available to centres including question level data available from e-marking for unit R001.

- you can identify the strengths and weaknesses of individual learners and your centre's cohort as a whole.

- our systems have been developed in close consultation with teachers so that the technology delivers what you need.

For further information on Active Results can be found on the [OCR website](#).

4.2 OCR Interchange

OCR Interchange has been developed to help you to carry out day-to-day administration functions more quickly and easily. The site allows you to register and enter learners online. In addition, you gain immediate and free access to learner information at your convenience. Sign up at <https://interchange.ocr.org.uk>.
