

4.5 Unit R096: Animation with audio

Aims

Animation is used in a wide range of applications in the media industry. Gaming technologies, mobile phones, film making, interactive media and websites all use digital animation to enhance applications, entertain and inform the viewer. Music, sound effects and dialogue work alongside animated movement, conveying meaning and creating impact and engagement. This unit enables you to understand the basics of animation and audio for the media industry.

In this unit you will learn to plan animations with soundtracks based on client briefs. You will learn to use a range of tools and techniques to create, edit and combine audio and animated content and export and review completed animation with audio products. Completing this unit will provide you with the basic skills for further study or a range of creative and technical job roles within the media industry.
