

2c. Content of Devising drama (01/02)

The aim of this component is to explore a given stimulus item through practical exploration and create a piece of devised drama.

Learners will explore and develop their understanding of how to use the devising process to communicate meaning in theatrical performance; to apply theatrical skills to realise artistic intentions; and to analyse and evaluate their own work.

Learners will complete a portfolio of evidence during the devising process, a final performance of their drama and write an evaluation of their own work.

Learners will explore a stimulus provided by OCR on the stimulus paper. This will contain the following stimuli each year:

- historic event
- instrumental music
- news article
- painting
- person/people
- photograph
- poem
- prose

- sculpture
- song.

The stimuli list will be reviewed after three years and may be subject to change. If a stimulus is to be removed from the list or replaced with another, centres will be notified a year in advance.

During the exploratory stage, learners will work collaboratively to create the narrative or concept for their performance. After this, learners will then focus on their chosen skill while rehearsing, refining and amending the performance ready for an audience. After the performance learners will write an evaluation of their own performance.

Learners work in groups to devise their drama. A group must contain between **two** and **six** performers and can contain **one** designer per design role.

Learners can choose from the following design roles:

- lighting
- sound
- lighting and sound (combined)*
- set (including props and multimedia staging)
- costume (including hair, makeup and masks).

* Lighting and sound (combined) cannot be chosen where a lighting and/or sound designer is part of the performance group.

Devising drama		
Learners should:	Learners should know and understand:	Learners should be able to:
work collaboratively to create, develop, perform and evaluate their own piece of devised drama as either performers or designers.	- research undertaken and how this has informed the development of the drama or design - how to develop an idea to progress from a simple to a more complex stage - how to plan, create and structure drama - how workshops can move the development of the performance forward - how to rehearse in preparation for a performance to an audience - how to make plans for the structure/form of an artefact – set, costume, lighting, sound - how to edit and adapt the work in progress as a result of new ideas or the development of the drama - how to examine in detail the process of creating drama and measure the impact on a live audience - how to communicate meaning to an audience through engaging drama.	- use research to inform creative decisions when devising their drama - examine the social, cultural or historical context of the chosen stimulus - explain how research has impacted on their artistic intentions - show the progression of their idea from initial thoughts to the realised form - select ideas to create engaging drama - clearly document the development of the performance during the devising process through the use of a portfolio - plan for effective use of rehearsals - refine and amend work throughout the devising process so that clear dramatic intentions are communicated to the audience - analyse and evaluate decisions and choices made during the process of creating drama - apply performance or design skills to performance for an audience - explain the changes made to their drama with reference to their artistic intentions and explain the intended impact on the audience - evaluate their final piece of devised drama - use accurate subject-specific terminology.
