

Learners also create a final realisation of their devised drama. The final assessed performance **must** be video recorded.

Learners working with designers are expected to work collaboratively in rehearsals. Learners working without designers are expected to realise a minimal amount of lighting, sound, set and/or costume as is necessary for the performance. This is not assessed for performance learners.

The minimum requirements for designers are as follows:

- lighting – a full lighting design for the performance with a cue sheet detailing lanterns used and the differing lighting states. A minimum of **six** lighting changes evident in the performance. Lights up and lights down are **not** included in this number. Discuss with appropriate staff the selection, rigging and
