

2c. Content of J205/02 – National and International Economics

This component provides learners with an understanding of the main economic objectives and role of the government in achieving them.

Learners will investigate the effects of economic policies on markets. They will use and interpret quantitative evidence, such as unemployment figures, in contemporary and historical economic contexts.

They will learn to appreciate the importance and impact of international trade by analysing data such as quantitative information on exports and imports.

Learners are encouraged to consider moral, ethical and sustainability issues that arise as a result of the impact of economic activity in a range of national and global contexts.

Please note:

All terms in **bold** are key terms learners should be familiar with and learners should be able to explain their meaning. For the use and meaning of command words please see Section 2b.
